WORK EXPERIENCE:

Copods | Pune

Mar 2024 - Feb 2025

FullStack Developer

- Developed a feature-rich admin dashboard for an LMS using React, Redux, MUI, and CSS, ensuring a smooth user experience.
- Built a scalable backend with Django, handling user growth with zero downtime and preparing for future AI integration.
- Improved usability by addressing key user issues, increasing adoption by 20% through research and design enhancements.
- Optimized API communication between my team, boosting development speed and improving collaboration.
- Took ownership of tasks, cut unnecessary features, and streamlined workflows, reducing development time by 10%.

Acviss | Bangalore

June 2023 - Feb 2024

FullStack Developer Intern

- Identified and resolved backend bugs, ensuring smooth data flow and system stability.
- Debugged and optimized APIs, improving response times and reducing server load.
- Fixed real-time messaging issues in WhatsApp integration, enhancing communication reliability.
- Collaborated with the team to troubleshoot website crashes and improve backend efficiency.

EDUCATION:

Bamu University

July 2019 - May 2023

- Bachelor of Computer Science - Software Engineering
